MERRY CAT

DRY FOOD SERIES

♥ *Happy Series* ♥

MERRY PINK

is a special product range that brings together products developed with cats' different life stages and nutritional needs in mind. Good nutrition begins with providing essential nutrients from the right sources and in balanced proportions.

MERRY PINK SERIES brings together balanced formulas focused on everyday nutritional needs, combining animal protein sources with essential vitamins and minerals. A significant proportion of the total protein in the formulas comes from animal sources, while protein, fat, fibre and essential nutrients are carefully balanced to meet cats' daily nutritional requirements.

An animal protein-focused nutritional approach provides a protein profile suited to cats' natural nutritional needs, while taurine, vitamins and minerals complete the nutritional profile of each formula. Ingredients and analytical constituents are clearly stated on the packaging, making it easy to understand what each recipe provides. In this way, Merry Pink Series brings together complete and balanced nutrition, an animal protein focus and a transparent approach to ingredients for everyday feeding.
